

ARMED INTRUDER and ACTIVE SHOOTER PROGRAM

P E N D U L U M
RISK MANAGEMENT SERVICES

It can—and has—happened.
An armed intruder finds his or her way into your building.
Now what?

It has become essential that leadership in all facets of business and industry recognize the need to plan for, respond to, and recover from an armed intruder or active shooter. The Pendulum Armed Intruder and Active Shooter Program, presented in conjunction with Sorensen, Wilder & Associates, allows your organization to:

- Understand a state of preparedness. Is your organization ready for an unforeseen emergency—environmental, accidental, or hostile? Does your Emergency Operations Plan cover all it needs to cover?
- Define terminology and concepts specific to a hostile act within your organization—specifically, a *focused and limited hostile event* or a *broad, organization-wide hostile event*. Understand how one type of incident can morph into another
- Review a case study and discuss the unforeseen challenges that the event can generate, adversely affecting the care and health of stakeholders, performance of staff, and operational state of the organization
- Learn how your staff can protect themselves during the commission of a hostile active event within the organization by utilizing “The Four Outs” of the Active Shooter Safety Action Plan
- Understand the increased stress and anxieties that come hand in hand with an active hostile event and how to control those anxieties and stress through thorough preparation and training
- Understand the critical decision-making process and psychology behind the program. Refine decision-making skills in order to increase the likelihood of survival of staff and other stakeholders during an active hostile event
- Learn the S.T.A.F. Protocol, balancing the safety of all stakeholders during an active shooter event within your organization
- Remain safe and alive during an active hostile event

Sorensen, Wilder & Associates Armed Intruder and Active Shooter Program is a nationally acclaimed program that prepares you and your organization to recognized threats and minimize the chances of such an incident, or if one should occur, to minimize the loss of life.

The logo for Sorensen Wilder & Associates features the company name in a serif font, with 'SORENSEN' and 'WILDER' stacked vertically and '& Associates' below them. A thin orange arc is positioned above the text. Below the company name is the tagline 'Specializing in Safety & Security Solutions' in a smaller, italicized serif font.
